WARNING: Information on this form may become public. Credit card information should not be included on this form.

Provide credit card information and authorization on PTO-2038.

This collection of information is required by 37 CFR 1.17 and 1.27. The information is required to obtain or retain a benefit by the public which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.14. This collection is estimated to take 12 minutes to complete, including gathering, preparing, and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, Washington, DC 20231. DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. SEND TO: Commissioner for Patents, Washington, DC 20231

For:

VARIABLE RELUCTANCE MOTOR WITH IMPROVED TOOTH GEOMETRY

AMENDMENT

Assistant Commissioner of Patents Washington, D.C. 20231

Sir:

In response to the Office Action of September 16, 2002, please amend the above-identified application as follows.

In The Claims:

Please cancel claims 1-20.

Please add new claims 21-26.

21. (New) A motor comprising:

a stator and at least one phase assembly, each phase assembly including a

plurality of phase units, said stator and phase units each including a plurality of teeth, said teeth each having a tooth surface with a length extending along a plane, adjacent said tooth surfaces being separated by a geometric shaped groove extending from a respective tooth surface, each said groove having opposing tooth sides, said opposing tooth sides each including a first portion having a first arc with a first arc center of origin located below said tooth plane, and at least a second portion having a second arc with a second arc center of origin located above said tooth surface plane.
